THE ENGINEER'S STORY.

Which Caused Justice to Be Done to Extent of Nine Dollars. In the smoking car, along with half a dozen others of us, was an engineer who was going down to Peoria, and after a time the judge started to draw

him out by saying:
"I presume you have had your share of close shaves, along with other engineers?" "I have, sir," was the reply.

'Been in many smash ups?' "A full dozen, I guess." "Any particular adventure that might be called wonderful?" Why, yes, I did have one," replied

the man after relighting his old cigar stump. "I didn't think it any great shave myself, but the boys cracked it up as something extra.' "Let us hear about it," said the judge, as he passed him a Havana.
"Well, one day about three years

ago I was coming west with the lightning express and was running to make up lost time. Down here about twenty miles two roads cross, as you will see, and there are a lot of switche and side tracks. I had just whistled for the crossing and put on the brakes when the coupling between the tender and the baggage car broke." "I see, I see," murmured the Judge.

"At the same moment something went wrong with old No. 40, and would not shut off steam. She sprang away like a flash, and as she struck the crossing she left the track and entered a meadow filled with stumps." "Good heavens!" "She kept a straight course for about

forty rods, smashing the stumps every second, and then struck the rails of the D. and R. road, and after a wabble or two settled down and ran for two miles." "Amazing! Amazing!"

"Then, at a crossing, she left the metals, entered a cornfield, and, bear ing to the right, plowed her way across the country until she came to our own road again. She had a long jump to make over a marsh, but she made it, struck the rails, and away she

"Not a soul, and not a thing broken. The superintendent played mean trick on me, though."

"How?" "Why, the farmer who owned the meadow paid the company \$18 for the stumps I had knocked out for him, while the cornfield man charged \$9 damages. The superintendent pocketed the balance of the money." "The scoundrel! And how much
